# KEY MOBILE APP STATISTICS 2022

In 2022, the time spent as per the record was

# WHAT THE USER SEES

- to-do list for the day
- the full date of the day is indicated (year, month, day)
- if the user needs it, he can create a clarification (for example: you need to go to the store and you can write a list of products that you need to buy)
- notifications on cases go in turn. and at the end of the tasks for today, the user will see the tasks for tomorrow
